

Getting Started

Well, I now know there are things I need to think about before I start:

- ~ I need to find my subject outline and make sure I know how to use LearnJCU and get to my emails.
- ~ I need to give myself plenty of time to think about my assignment, to think about what I need to do, and to read the information I find.

And I need to remember that the Librarians and Learning Advisers are here to help me when I need it.

It's good to know I'm not alone :)
