Well that was interesting.
The sources checklist makes it easy to figure out which sources to use at University.

I'm glad I found out how to decide what to use from the Web.

Once I've picked out my sources, I wonder how to show what I've used in my work - so it's clear to my lecturer where I got my great sources to back-up my great ideas!

Hopefully, I'll find out at my next stop.
