6. Develop search strategy to find evidence to support your position (6 scholarly sources; 3 found independently). Start by using One Search.

7. Keep a research file (Cornell method template) of your resources (author, date, title and source & summary of main points).
**Topic/Position:**
Smallpox and how the disease and vaccine piggybacked routes of exchange

---

**Key Concept:**
- Power, with the focus on accidental power

**Key Concept:**
- Exchange - mapping the network
  Note: Before I go into the key evidence it will be important to establish a background context and explain how the smallpox disease came about

---

**Evidence:**
- The disease was spread through routes of trade and population expansion.

**Evidence:**
- Consider military incursion
  After discussing the three above directions, it will important to discuss and critically evaluate eradication of the disease

**Evidence:**
- Consider the impact of exchange of religious ideologies pertaining to the disease

---

**Conclusions/Implication:**
Demonstrate and highlight the significance and power of knowledge. Think about what I know now as a result of completing the assignment and the interconnectedness and relationship between all of the ideas communicated.
